

SMART Board™ V280 interactive whiteboard

"In my case, before the SMART Board interactive whiteboard was used, my students were not focused during class. Now, they concentrate on the lessons and it is easier to keep their attention."

Diana Castillo Del Rosario, teacher,
Colegios La Salle, Guadalajara,
Mexico

Enable interactive learning

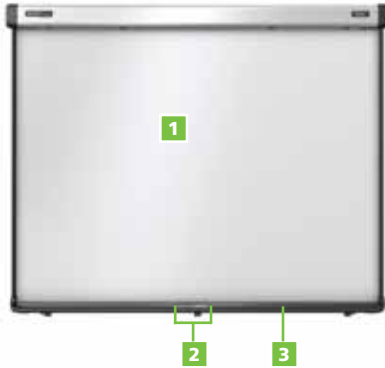

Create 21st-century lessons that encourage student participation and facilitate hands-on learning with the SMART Board™ V280 interactive whiteboard. The V280's large screen helps you deliver compelling lessons in classrooms with many students. Ideal for whole-class teaching and learning, the V280 offers you outstanding value in a pen-based solution.

Teach with ease

Connect the V280 to your computer and a projector, and use the V280's ergonomic pen to control computer applications and write notes in digital ink with effortless precision. SMART's patented, award-winning DViT™ (Digital Vision Touch) technology ensures that touching the V280's screen with your hand does not interfere with the pen's operation. With a durable hard-laminated 77" (195.6 cm) screen, the V280 is powered by your computer through a single USB cable. This installation-friendly interactive whiteboard draws minimal power and needs no wall plugs. The V280 also comes with award-winning Notebook™ collaborative learning software, so you can easily create and deliver dynamic lessons that promote student engagement. The software's extensive Gallery gives you access to over 100,000 complimentary resources, including images, lesson activities and video and audio files.

Experience the quality

Like the world's first interactive whiteboard, the V280 is created by SMART, so you can trust in its durability and reliability. Backed by a five-year warranty, the V280 offers you exceptional quality in a pen-based solution. With the SMART Board V280 interactive whiteboard, you'll enhance the interactivity of your lessons while maintaining a low total cost of ownership.

- 1** Hard-laminated surface
- 2** Ergonomic pen
- 3** Pen tray

Key features

SMART Board interactive whiteboard

Project your computer image on the pen-based display. You can then control computer applications directly from the display, write notes in digital ink and save your work to share later. The SMART Board interactive whiteboard also comes with feature-rich Notebook collaborative learning software.

DViT (Digital Vision Touch) technology

Experience the magic behind the V280's pen-operated system. Use the ergonomic pen as a mouse or a writing tool.

Digital ink

Write in digital ink over any application, website or video.

Save function

Capture your work to Notebook software as an image that you can edit, or save your notes directly into several software applications, including Windows® versions of Microsoft® Office software, or AutoCAD® software.

Ergonomic pens

Write and control applications easily with either of two ergonomically-designed, battery-operated pens. Each requires only one AAA battery to operate.

Wall-mount bracket

Install your SMART Board interactive whiteboard simply and securely.

Durable surface

Discover a strong, lightweight solution with a hard-laminated surface optimized for durability.

USB cable

Connect the V280 to your computer. There's no need to power the board from a wall plug.

Security lock

Secure your V280 with a Kensington® cable lock.

Floor stand (optional)

Add mobility to your interactive whiteboard with a height-adjustable floor stand, equipped with sturdy casters and stabilizing safety guards.

Warranty

Upgrade to a five-year warranty upon product registration or choose the two-year standard warranty.
